SECTION C

SCOPE OF WORK

C.1 Background/Objective: Under a 2004-5 contract with DARPA (HR0011-04-C-0141), the contractor conceived a methodology to use radar frequency (RF) technology to detect Rocket Propelled Grenades (RPGs) and Man Portable Air-Defense (MANPAD) weapons prior to their launch. The novel approach included study/data collection/analysis to determine the detection and classification potential to locate RPGs and Surface to Air Missiles (SAMs) from windows, rooftops or other wall openings based on the weapons RF signature, thereby detecting hidden combatants utilizing urban terrain to mask their location before they can employ these weapons. This effort resulted in data collection of RPG RF signatures showing that they had the potential to be exploited for pre-discharge detection.

C.2 Requirements: The Contractor acting as an independent contractor not as an agent of the Government shall provide the necessary personnel, facilities, materials and services to perform and complete the work effort described below:

C.2.1 The contractor shall configure laboratory (instrumentation) radar with the capability to explore the various signal processing degrees of freedom to detect Rocket Propelled Grenades (RPG) radar signature profiles. The contractor shall use RPG signature data collected by the contractor in the previous Government contract HR0011-04-C-0141, as input design data.

Name of Offeror or Contractor:		

C.2.2 The contractor shall use Ka Radar Frequency (RF) band for this contract effort, as the primary RF band. If the contractor identifies alternate RF bands, which have near equal or greater potential and compatible with radar threat detection systems being developed for, or in use by the U.S. Army, the contractor shall submit the findings of the Alternate Band Evaluation to the COR, as an Addendum to the Progress Report, in accordance with CDRL Data Item No. A003, (ref. Para. C.3.3, below). The contractor shall provide in the findings a detailed rationale for the need of the alternate RF bands, contract cost and schedule impact (if any) and the potential benefits of the alternate RF bands.

C.2.3 The contractor shall develop RPG pre-discharge detection algorithms for use with the instrumentation radar. The contractor shall verify to the COR that the algorithms operate properly with the instrumentation radar at the contractors facility prior to conducting a field test.

C.2.4 The contractor shall develop and prepare a Engineer Design Test Plan, IAW Exhibit A, CDRL Data Item No. A001 and paragraph C.3.1, below, and submit it to the COR for written approval prior to test. The contractor shall coordinate with the COR to identify a field test location. The test shall include data collection with and without buildings and vehicles that act to provide a representative clutter environment. The contractor shall use multiple setup geometries and profiles to determine general capabilities and limitations of the algorithms in combination with the tested RF band.

C.2.5 The contractor shall conduct a field test, IAW their Government approved Test Plan, to evaluate the performance of the algorithms in achieving detection of a non operable, inert RPG or simulant.

C.3 Deliverables: The Contractor shall prepare and deliver task documentation in accordance with (IAW) Exhibit A, Contract Data Requirements List (CDRL) and as follows:

C.3.1 Test Plan: For the field test, the contractor shall develop an Engineer Test Plan, in the contractors format, IAW CDRL Data Item No. A001, Data Item Description (DID), DI-MGMT-80688, titled: Engineer Design Test Plan. The test plan shall describe test hardware and procedures to be used; coordination needed at the selected field test site, expected schedule for the test setup, check-out, performance and completion and test exit criteria. The COR will review and reply within two (2) weeks of receipt.

C.3.2 Final Technical Report: The contractor shall prepare a Final Technical Report in the contractors format, IAW CDRL Data Item No. A002, DID, DI-MISC-80711A, titled: Scientific and Technical Reports. "Note: Delete paragraph 10.2 of the DID requirement." The Final Report shall include the contractors complete documentation of the technical effort for the duration of the contract with the contractors evaluation of the developed algorithms abilities to detect a pre-discharge RPG. The contractor shall submit the draft Final Report to the COR within 30 days after the engineering test. The Government will have 30 days after receipt to provide comments back to the Contractor. The Contractor shall submit the Final Report to the Government IAW CDRL Data Item No. A002, 15 days later, along with a DD Form 250 or WAWF, for Government inspection and acceptance.

C.3.3 Contractors Progress, Status and Management Report: The contractor shall prepare the Progress Reports in the contractors format, IAW CDRL Data Item No. A003, DID, DI-MGMT-80227, titled: Contractors Progress, Status and Management Report. The progress reports shall be delivered monthly via email to the Government beginning 60 days after contract (DAC) award.

C.4 EXPORT CONTROL WARNING: The contractor shall put the following Export Control Warning, on all the technical data deliverables prior to their delivery under this contract, (i.e., on the Progress Reports; the Test Plan and Final Technical Report).

C.4.1 "WARNING- This document contains technical data whose export is restricted by the Arms Export Control Act (Title 22, U.S.C., Sec 2751, et seq) or the Export Administration Act of 1979, as amended, (Title 22, U.S.C., App. 2401 et seq). Violations of these export laws are subject to severe criminal penalties. Disseminate in accordance with provisions of DoD Directive 5230.25."

C.4.2 When it is technically infeasible to use the entire statement, an abbreviated marking may be used, and a copy of the full statement added to the "Notice to Accompany Release of Export-Controlled Data" required by the DoD Directive 5230.25 (reference (c)).

C.5 DISTRIBUTION STATEMENT C: The contractor shall include/insert the Distribution Statement C, shown below, on each of the Data Item deliverables of Exhibit A of this contract.

C.5.1 Distribution Statement C: Distribution is authorized to U.S. Government Agencies and their contractors (Critical Technology). The date of determination is the award date of this contract. Other requests for this document/data shall be referred to US ARMY, TARDEC, Mail Stop #263, 6501 E. 11 Mile Rd, Warren MI 48397-5000.

G-7	52.232-4005	INVOICE INFORMATION REQUIREMENT	JAN/1988
(TACOM)			

On each payment request submitted, the Contractor shall identify each affected Contract Line Item Number (CLIN), sub-CLIN, and/or work directive, together with the related dollar amounts. This requirement does not diminish or restrict any other requirement of this contract.

* * G.1 CONTRACTOR: SPECIAL BILLING INSTRUCTIONS: * *

G.1.1 The Contractor shall bill to the six-digit Sub-Line Item Number (SLIN) level and ACRN under the four-digit Contract Line Item Number (CLIN), see Section B, for which the work effort was performed.

G.1.2 If multiple SLINs exist on the same four-digit major CLIN, the Contractor shall determine which six-digit SLIN contains the oldest fiscal year money and invoice against the SLIN containing the oldest money, until fully billed.

G.1.3. To determine the fiscal year of funds, refer to the "Job Order Number" (JON) column that applies to ALL funding under the four digit CLIN, as shown in Section G - Contract Administration Data. The first digit of the JON represents the fiscal year. (For example, CLIN 0001 is funded by SLINs 0001AA and 0001AB. If JON: 42C334 is associated with 0001AA and JON: 52C205, associated with 0001AB, SLIN 0001AA is FY 2004 funding and shall be invoiced prior to invoicing against SLIN 0001AB, which is FY 2005 funding.)

* * G.2 DFAS: SPECIAL PAYMENT INSTRUCTIONS: * *

DFAS will make payments as billed by the contractor.

The report shall be prepared in terms of dollars available per Purchase Request Order Number (PRON), unless requested otherwise by the PCO.

K-1452.215-4404DATA AND COMMUNICATIONS SUBMITTED TO THE GOVERNMENT ELECTRONICALLYMAY/2002

(a) The Government often employs contractors as system administrators to operate and maintain Government computer systems. These systems include local area networks, web sites, databases, other electronic records, e-mail accounts, other electronic data transfer mechanisms and computer software. The employees of these contracted system administrators sign nondisclosure agreements obligating them not to reveal information contained in files, documents, computers or systems that they administer. However, unless such information is protected in some way, contracted system administrators do have the ability to access such information.

(b) Potential contractors as well as any other parties are thus advised to take steps needed to prevent access by contracted system administrators to information submitted electronically to the Government. Absent such steps, it is assumed that contracted system administrators are permitted the capability to access the data. The access will be limited to that which is necessary for the contract system administrator to perform its duties for the Government. The access shall be subject to the condition that third party information is not to be revealed by the contracted system administrator.

(2) Directly requires the use of CIODS means that the Government's specification or technical data package, at any tier, explicitly requires the use of any Class I Ozone-Depleting Substance (CIODS) in performance of the contract.

(3) Indirectly requires the use of CIODS means that the Government's specification or technical data package, while not explicitly requiring the use of any CIODS, does require a feature that you can meet or produce only by the use of CIODS.

(b) Per Section 326 of Public Law 102-484, the Department of Defense cannot award any contract that directly or indirectly requires the use of CIODS unless (i) the use of such substances is essential for contract performance, and (ii) no suitable substitute for the CIODS currently is available.

(c) Before releasing this solicitation, we conducted a best effort review of its technical requirements, standards, and specifications, to see if any contain requirements for CIODS. If we identified any such CIODS requirements, they are identified in subparagraph (d)(1) below.

(1) In addition, to help TACOM meet its obligations under Public Law 102-484, we ask you for input. If you have any special knowledge about any CIODS requirements that our specifications impose, whether directly or indirectly, or if you know about potential substitutes for any CIODS required by our specifications, we would appreciate the information.

(2) It should be understood that you are not obligated to give us the information requested by this provision, and that we cannot provide any separate or special payment for doing so. However, we are asking only for information based on knowledge that is readily available to you as a supplier in this industry. We do not expect you to do any review of our specifications more extensive than the one you perform in order to develop your price.

(d) Please summarize your own review of our specification/technical data package, by completing the following:

(1) During our review of the specification or technical data package in this solicitation, we--

- [] have
- [] have not

found any direct requirements to use any CIODS. (If have is checked above, offerors are asked to identify, on the following lines, (i) any specifications and standards not already listed immediately below that directly require the use of CIODS; (ii) the CIODS required by the listed specifications and standards; and (iii) whether any substitutes are known to be available for the listed CIODS.)

Spec/Standard	Required CIODS	Substitute Available?

Name of Offeror or Contractor:

(2) Further, in our review of the specification or technical data package in this solicitation, we--

[] have
[] have not

found any indirect requirements to use any CIODS. (Offerors who check have above are asked to identify, on the following lines, (i) the specifications and standards for this acquisition that indirectly require the use of CIODS; (ii) the CIODS indirectly required by each listed specification and standard; and (iii) whether any substitutes are known to be available for the listed CIODS.)

<u>Spec/Standard</u>	<u>Required CIODS</u>	<u>Substitute Available?</u>

(e) Offerors who check have in paragraphs (d)(1) or (2) above also are requested to say whether substitutes are known to be available for any of the CIODS. If an available substitute would perform less well than the CIODS would perform, please let us know what the technical trade-offs are to the extent that you have such information available.

(f) If you checked have in paragraphs (d)(1) or (2) above, and also indicated that substitutes for CIODS are available, we need to know whether use of the suggested substitute would have any effect on your proposed price. If your proposal price for compliance with our current specifications differs from what your price would be if the substitute for CIODS were required, we ask that you let us know what the difference would be in Section B of this solicitation, by giving us two prices or offers:

- One price/offer, labeled with CIODS, will be the offered price in the event that CIODS are used.
- The second price/offer, labeled without CIODS, will be the price offered if substitutes for CIODS are used, and will specify the substitute(s) being proposed for use.

(g) Section 326 of Public Law 102-484 reflects the national and international interest in minimizing the use of CIODS. For this reason, TACOM reserves the right to (i) determine the suitability of substitutes for CIODS when such potential substitutes are available; and (ii) change the specification in any contract awarded as a result of this solicitation, to require the use of suitable substitutes in lieu of CIODS.

(a) Exceptions from cost or pricing data.

(1) In lieu of submitting cost or pricing data, offerors may submit a written request for exception by submitting the information described in the following subparagraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable.

(i) Identification of the law or regulation establishing the price offered. If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) Commercial item exception. For a commercial item exception, the offeror shall submit, at a minimum, information on prices at which the same item or similar items have previously been sold in the commercial market that is adequate for evaluating the reasonableness of the price for this acquisition. Such information may include --

Provide a copy or describe current discount policies and price lists (published or unpublished), e.g., wholesale, original equipment manufacturer, or reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities;
- (B) For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market;

(2) The offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the offerors determination of the prices to be offered in the catalog or marketplace.

(b) Requirements for cost or pricing data. If the offeror is not granted an exception from the requirement to submit cost or pricing data, the following applies:

(1) The offeror shall prepare and submit cost or pricing data and supporting attachments in accordance with Table 15-2 of FAR 15.408.

(2) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2.

[End of clause]

L-11 52.219-4005 SUBMISSION OF SUBCONTRACTING PLAN
(TACOM)

FEB/1999

(a) Please refer to FAR 52.219-9, SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS SUBCONTRACTING PLAN, which is incorporated by reference in Section I of this solicitation. The clause requires large businesses to submit a subcontracting plan for small and small disadvantaged business concerns. Such plans are not required from offerors that are small businesses.

(b) TACOM will require a copy of such subcontracting plan. Large businesses may submit a copy of their plans (i) as an attachment to their offer in response to this solicitation; or (ii) after the bid opening/proposal closing date, in response to the Government's telephonic request (in which case the copy must be provided within five workdays of the date of the request). The plan will be submitted to the buyer's e-mail address on the face page of the solicitation.

(c) As the offeror, you need to mark each page of your subcontracting plan with the solicitation number and date. If this is a negotiated acquisition, we reserve the right to negotiate any and all elements of the proposed plan during negotiation of cost, technical, and/or managerial features of the proposal. We also reserve the right in negotiated acquisitions to discuss the subcontracting plan after receipt of any best and final offer, in which case such discussion shall not constitute a re-opening of negotiations.

(d) Failure to submit and, if applicable, negotiate an acceptable subcontracting plan which, in the judgment of the Contracting Officer, provides the maximum practicable opportunity for small business and small disadvantaged business concerns to participate in the awarded contract shall render the offeror ineligible for award. In this connection, offerors should be aware of the statutory goal that has been placed on the Department of Defense to award five percent of its total planned subcontracting dollars to small disadvantaged businesses (to include Historically Black Colleges and Universities and Minority Institutions) at the prime contract and subcontract levels. In view of this Congressional mandate, large businesses shall provide specific explanation as a part of any written subcontracting plan furnished in response to this solicitation/contract that identifies a goal for subcontracting to small disadvantaged business concerns and/or Historically Black Colleges and Universities and/or Minority Institutions that, in the aggregate, amounts to less than five percent of the bid or proposal's total subcontracting dollars.
